

MEMBRANE OVER CONCRETE

CEMENTITIOUS SELF-LEVELING UNDERLAYMENT

All NAC sheet membranes (ECB®, ECB® 75, Strataflex®, SAM® 3 and Super SAM® 125) may be used in this type of application for above-ground concrete substrates with a cementitious self-leveling underlayment.

All NAC sheet membrane systems require the use of the appropriate NAC Primer to ensure a permanent bond to the substrate.

For specification purposes, the NAC products used in this system are:

- NAC Sheet Membranes
- NAC Primer

Visit NACproducts.com or call 800-633-4622 for more information.

Detail refers to F205 for above-ground concrete substrates with a cementitious self-leveling underlayment. See current edition of the TCNA Handbook for additional guidelines.
